

# Let's Play

The Link to  
Reduce. Reuse  
Recycle Song  
with Jack  
Johnson

## REUSE, RECYCLE, AND CREATE

1. Create the environment by placing a variety of recyclable items such as plastic bottles, paper and cardboard tubes or boxes on a table. Ask the children to help you collect materials like tape, glue sticks string and scissors you will need.
2. Explore and encourage your child to get started! Ask “I wonder what we could do with all of this?” and see where it takes you.

### Well-Being and Belonging

#### Why?

Through this experience children will learn:

- How their actions may affect nature and the planet.
- Abstract and critical thinking skill, creativity and innovation
- Language Development

#### WHERE & WHEN

- This experience can be complete on a flat surface: Ideally at a table, indoors or out.
- This activity can occur at any time of the day, and best explored individually or in small groups.
